Problem (public)

Error 48 or 56 occured in activation process:

Solution (public)

These errors mean that vendor library should be updated before activation.

To solve the problem you should update vendor library file haspvlib_46707.dll (haspvlib_x86_64_46707.so) as described below.
After that you should use RECOVERY LICENSE menu item in kActivation utility instead of ONLINE ACTIVATION.

Windows:
1) Download haspvlib_46707.dll
[1]https://sd7.ascon.ru/Public/Utils/Sentinel%20HASP/dlls/haspvlib_46707.dll

2) Put haspvlib_46707.dll in directory
C:\Program Files (x86)\Common Files\Aladdin Shared\HASP\update

Linux:
1) Download haspvlib_x86_64_46707.tar
[2]https://sd7.ascon.ru/Public/Utils/Sentinel%20HASP/so/haspvlib_x86_64_46707.tar

2) Unzip haspvlib_x86_64_46707.so to folder
/var/hasplm/update
