

KOMPAS-3D starts in demo-mode ([..])

02/21/2020 14:56:58

[FAQ Article Print](#)**Category:** FAQ in English::Software Protection**State:** public (all)**Last update:** 12/26/2019 19:57:56

Keywords

demo, demo-mode, license, HASP

Problem (public)

My HASP HL key is already licensed for KOMPAS-3D and libraries, I can see the key and its licenses in Admin Control Center (http://localhost:1947/_int_/devices.html), but still KOMPAS-3D starts in demo-mode.

Solution (public)

Please, do the following:

- run KOMPAS-3D and go to Service and choose Obtain KOMPAS-3D License (see ObtainLicenses.jpg in attachment);

- to obtain the licenses automatically while launching KOMPAS-3D go to Service/Options..., then choose General/License Management and check both boxes (see ObtainLicensesAuto.jpg in attachment).
