license, damage, corrupt, rehost

Problem (public)

Which user actions can corrupt KOMPAS-3D Home license?

Solution (public)

Actions described below will not corrupt the license:

adding (or removing) second (or more) physical hard drive
reinstalling the same OS Windows, installing other version of OS Windows (e.g. from Vista to Win7) without formatting hard drive partition where OS is installed
reinstalling the same OS Windows, installing other version of OS Windows (e.g. from Vista to Win7) with formatting system hard drive partition without removing/repartitioning hard drive partitions
formatting second (or other if more) hard drive partition but not the one where OS is installed
repartitioning of second (or other if more) hard drive partition but not the one where OS is installed

If you are not sure, please, rehost your license to some other machine before changing and then get it back when all changes done. License transferring is described in [FAQ#\[1\]7001157](#).
